

To Whom it may concern,

I Julie Garcia, am the Mother of Antonio Argueta. I had sent Antonio to Maipon, back to The Dalles because my grandpa had passed away & left me property in Antelope, Oregon. I wanted a new start because I had been in The Dalles for fourteen years & thought it would be in Antonio's best interest to move with me to Antelope. I did not realize I would be taking away his job, his opportunity to get a quality education, & sports opportunities with his closest friends. When I realized that the two months in Antelope were not working out, I made the tough decision to send him back to The Dalles to live with his best friend. By moving away, I did not realize I would be taking away his chances of playing sports in The Dalles. Had I known, I would have stayed in The Dalles, although it is too late because I already have a job & put a manufactured home on the property. All I want is the best thing for my son & I now realize that by Antonio staying in The Dalles, he is a happier person, & it was clearly the right decision to let him go back.
