ATTN: District Hardship Committee

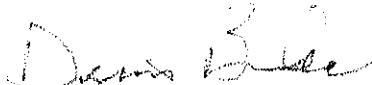

RE: Shunt De Lira

Shunt De Lira was a Wilsonville student for the past two years, attending his freshman and sophomore years. Unfortunately, due to situations beyond his control, and his family's control, Shunt has moved to Creswell and will attend school there. The primary aspect of the situation is the significant increase of rental costs in our area. A growing number of families have been affected as they try to make ends meet. Shunt's mom found herself in a very tough and emotional situation, and is making the best decision for her sons.

Shunt was a student in good standing as a citizen and as a student-athlete. He worked hard through academic challenges, and utilized the support system provided and needed. He is a quality individual and deserves a positive outlet to help him connect in his new school. He enjoys participating in extra-curricular activities and has a solid perspective in his involvement.

Athletics had nothing to do with this transfer, and there is no issue in regards to undue influence. We offer our support to Shunt and his family and wish for them, the best of luck and care. Please feel free to contact me if you have any questions.

Sincerely,

Dennis Burke
Assistant Principal/Athletic & Activities Director
