

August 12, 2015

Hi, my name is Angel Perez and I'm a student attending Marshfield High School. I'm requesting a hardship because I love football. It's my passion. I'm short half a credit and currently ineligible to participate in football. In august 2013 I broke my tailbone. I didn't know how bad it was till I found out I grew a cyst where the fracture was. So in June 2014 I had my first surgery where the results were not well. Later on that year in December I had a second surgery. I missed so much school and fell way behind. I tried comprehending the lessons but I was unable to. With all the help the teachers were giving me I refused to learn and had given up. Towards the end of the year I had realized that it was unacceptable to quit. From failing all classes I had raised all but two leaving me half a credit behind. I'm requesting this hardship for my love of sports. I'm a junior and these are my last year to play football. I promise that my grades will improve and I'll keep them up all year wether I get this hardship or not. Please take my request into consideration.

Thank You,

Angel Perez
