

Hello, my name is Josh Martin and I wanna tell you why I think I should have a hardship. A few years ago I started having trouble with using drugs and skipping school. I've played football for 7 years and it has always kept me out of trouble. During the 2014-15 school year I was sent to an in-patient rehab center where I spent 4½ months making up credits and learning how to live a drug free life. Since ~~the~~ graduating treatment on march 17th I have ~~been~~ gotten great grades, great attendance and a tottal turn around. I was 18 credits behind and now I am only 2 credits behind. I am dedicated to having a good acidermic and an overall great Senior year. Thank you for your time.
