Dear Forest Grove High School and OSAA:

I am entering my Sr year at Forest Grove High School and plan to play high school soccer for the 4<sup>th</sup> year in a row. During registration I was informed that the guidelines for athletics states that a student must pass 5 classes the prior semester. Although I have passed all of my classes since entering high school and currently have an unweighted 3.72 GPA and a weighted GPA of >4.0, I did not attend high school in the US during second semester of my Jr. year and thus, can't claim to have passed 5 classes the prior semester. I attended Joaquin Turina High School in Madrid, Spain and did receive a certificate of completion, which I have attached for your reference.

I am requesting an exception to the current rule so that I can participate in soccer my Sr. year. School is my top priority and I can assure you that grades will not be a problem throughout the soccer season.

Sincerely,

Sydney Sullivan

Re: Sydney Sullivan athletic eligibility

I am writing you to confirm that I support Sydney's request for athletic eligibility despite not meeting the requirement of passing 5 classes in the prior semester. As Sydney stated in her letter, she attended 2<sup>nd</sup> semester of her Jr. year in Madrid, and while she did receive a letter of completion, she did not receive grades.

Sydney is an excellent student and places her academic achievement above all else and remains on pace to not only graduate but to do so with an outstanding GPA that includes numerous Honors and AP classes.

Thank you for considering her request. I am available to discuss live should you have any questions or concerns. You may call me at 503 701 8446 at your convenience.

Regards,
