Hello Mr. Casteel,

Our family has been living in the Westview school district since 2001, during which time I have been working at Nike's WHQ. In 2012, we were expatriated to China for Nike. During the current summer we learned that our daughter needs certain medical treatment, for which her doctors are in and around the Portland area. Due to her needs, we decided that the my wife and children, Sean and Tatiana Hazenberg, are moving back to our house in Portland. Meanwhile, I'm staying in China to continue my expat position as originally planned.

Please let me know if any additional information is needed to clarify. I trust this will suffice to establish athletic eligibility for both students.

Best regards,  
Peter Hazenberg
