To Whom It May Concern:

I am writing this letter on behalf of Lasha Shephard. I have coached Lasha in high school volleyball as well as Club volleyball for the past 2 years. I have seen her ups & down, the struggles and the successes of Lasha since she entered into high school in September of 2013. I strongly feel she is able to get back on track to graduate.

Lasha is passionate about being an athlete and has an incredible talent. For Lasha, the most important is to graduate high school. But I do strongly feel participating in what she loves the most, will keep her focused and determined to succeed in the classroom.

I hope that you will consider her involvement in volleyball for Grant High School.

Thank you,
