To Whom It May Concern:

Alexus Howard-Johnson has been a part of the Grant Volleyball program for the past 2 years. She is tremendous athlete with a great work ethic. She has struggled through the years with her ADHD and a tough home life, but in recent months I have seen a change in Alexis. Her commitment to changing her academics has been re-focused. Her willingness to work at being a better student has become more of priority in the last 4 months.

I feel with the change in Alexis' work ethic and her putting a plan in place, she is ready to focus on school and be a student athlete.

Thank you,

A handwritten signature in black ink, appearing to read "Erin Cole". The signature is fluid and cursive, with the first name "Erin" and last name "Cole" clearly distinguishable.

Erin Cole
