Kuulei Wong  
7/17/2997

Therapist: Misty Lovgren, LPC

Kuulei Wong is my patient. I have been working with her since 5/18/2015. She has been diagnosed with depression and anxiety. Since beginning therapy, depressive symptoms and anxiety symptoms have decreased.

Kuulei's participation in therapy has been active. Her treatment compliance has been full. Her response to treatment is better than expected. Her expected therapy outcome is good.

Best Regards,
