Re: Kuulei F Wong

To Whom It May Concern:

Ms Wong is under my care for management of a mood disorder that necessitated her taking a leave of absence from school. She saw me in clinic on 4/29/15 and 7/23/15 and we have communicated via email as well. In addition to medication, she is also in therapy and is improving. Please allow her to continue to participate in volleyball. Please let us know if you have any questions.

Sincerely,

Otuodita Enyinne Ejiasa, MD
