

### **Credit Recovery Plan**

Joe Jesse is currently enrolled at Clackamas Middle College. He is credit deficient due to hardships out of his control. However, he has straight As with the exception of one B except for the one year he was basically abused and held at home and not allowed to go to school.

Clackamas Middle College is the ideal situation for him as it is a 5-year program where students graduate with their high school diploma and he'll graduate with his Associate's Degree as well. Due to him taking a full load and passing all his classes as a freshman, all classes last year, and plans to continue to take a full load Joe will graduate as expected.
