

August 21, 2015

Stuart Smith, Athletic Director

Roosevelt High School

Portland, OR

Dear Mr. Smith,

It was very nice to meet you in person today. At your request, I am writing a letter to explain Conley Taylor's academic situation for 2014 and 2015. Conley registered in Fall 2014 at Roosevelt High School for his junior year with the plan to be up in Portland with his dad for his final two years of high school.

In October-November of 2014, his mom Jeny Taylor was having extensive health issues with migraines and earaches. Based on CT scans and MRI scans, it was diagnosed that she had a brain tumor and may need surgery and also needed a determination whether it was cancerous or benign.

Conley attempted to continue his academics up there, but the worry of what could be happening with his mom made us all determine that we needed Conley down in Albany with her. With regret but understanding, Roosevelt allowed Conley to return to Albany and be closer to mom.

Since that time, his mom has had some surgery that determined the tumor to be benign and the doctors have her stabilized enough for Conley to come back up to Roosevelt and continue his original academic plan. He's worked hard to be caught up and even attended summer school!

We hope that Roosevelt will approve his return to Roosevelt High School for his senior year.

Sincerely,

A handwritten signature in dark ink that reads "Pam Taylor". The signature is written in a cursive, flowing style.

Pam Taylor

Conley's grandmother
