

8/27/2015

To Mr. Tom Welter:

Please consider Noorulah Tajik for an academic hardship so that he may participate in school athletics. Noorulah came to the Centennial High School after moving to the United States as an Iranian refugee. Upon arriving at Centennial, Noorulah had no academic records with him. After attending Centennial for one academic year, he proved himself as a good student. His cumulative GPA after one semester of study was 2.57. After the school year was completed, he improved his first semester previously stated GPA to a 3.43 during the second semester. He showed a dramatic increase in academics after he acclimated himself to the school setting. It should be stated that Noorulah also attended a SUN school summer class where he earned .5 credit. In addition, he was involved in eight weeks of enrichment activities where no credit was available. I believe that Noorulah is making great strides at becoming an outstanding student at Centennial High School. As you can see from the plan the counselors have put together, we believe that Noorulah can be on track to graduate after his senior year.

Sincerely,

Brent Child  
Athletic Director  
Centennial High School
