**Subject:** Letter for Roy Nelson

My name is Allyscia Foster. I am Roy Nelson's older sister. As of a month ago I've taken him in with myself, my fiancé, and our baby. Roy was born and raised in Sacramento, CA by our mother, Suzanne Cormier. About a year ago she was admitted into a nursing home because of her illness, Cystic Fibrosis. Therefore, she was unable to care for Roy. He was then sent to Texas to live with his cousin and her husband. He lived there for about ten months. We then learned that his situation there was not good and he needed somewhere else to live. His father is not a part of his life, so that was not an option. There were no other family or friends who were able to take him in, so myself and my fiancé stepped up and took him in to live with us in Klamath Falls, OR and to attend Mazama high school. Roy Nelson is a great kid and we are more than happy to care for him while he finishes and graduates high school. He would love to participate in sports while in school and we're hoping we can make that happen for him.

Thank you,  
Allyscia Foster
