The following questions need to be answered to the satisfaction of the principal, athletic director, and the OSAA or district committee. Explain thoroughly.

1. How is it that the student finds themselves in this situation?
2. Why should an exception be made to the eligibility rules in this case?

I found myself in this situation because I had gotten super lazy after the football season. I had no motivation to wake up in time for school and started to let my grades slip. I thought that I could miss school and it wouldn't matter because it was only freshman year. I also got myself in situation because I never took the help from the teachers that offered it to me. Instead of me messing around I should have been more focused and took my grades more serious.

2) I think an exception should be made because I am way more motivated to get caught up with the classes I failed and to keep my grades up during and after football season ends. I understand that I messed up my freshman year but I want to fix it my sophomore year so I can get back on track to graduate. I also think that an exception should be made for me so I can prove that I matured more and that I am taking school more serious this year and for the next two years as well. I promise that my attendance will be nothing close to how it was last year.
