

My name is Ericson Simina, and I am writing this letter to ask if you can accept me and my hardship to be eligible to play this season. In the past 5 years I've made a lot of bad decisions, since I was 17 till this day I've been on probation. Not being involved in school activities lead me to making bad decisions, but now that coach Johnson has given me this opportunity to play football, I really think I can change onto a better path. Since I've joined the team I haven't been involved in any criminal activity. I really would like it if I was accepted and would be eligible to play football because I never want to return to the life I used to live. 2 months ago I was involved in an incident where it lead to me getting shot 3 times, 2 in my left shoulder and the 3rd grazed my neck. I never wanna go through that situation again, and I believe that playing football will keep me on track and distract me from all criminal activity.

Also being able to play will help me academically because I really want to play and in order for me to play I have to have good grades.

Thank you

{ Ericson Simina }

TO Whom it may Concern.

This is Griffin Eram, Ericson Simina's Dad. I am writing this letter to let you know how happy ~~am~~ ~~I~~ ~~am~~ I am when Ericson participate in foot ball practice and foot ball games, because he really change the way he was before like, hang out with bad kids, stay off the street and not going to juvenile Detention anymore, this really help changing his life, cause he doesn't go stay with his friends that they lead him to do bad things like he used to do before.

Thank you { Griffin Eram }
