

August 2015-

To OSAA

last year I was attending Wilsonville High school and living with my father (Soc Lehniger) however near the end of the school year I wasn't allowed to stay there anymore and I moved in with my mother last second (while I was still enrolled at Wilsonville) I didn't finish the school year because my mom couldn't transport me to Wilsonville for school everyday and there isn't any bus in Vancouver to Wilsonville that I could take for school. My mom is looking for a place to live in or near Wilsonville and in the meanwhile I am currently living with Monica Keenan so I can attend Wilsonville Highschool.

With my credits so low I would still like to ~~be able to~~ play sports and get involved with the school, because it helps me focus and keep my grades up. last year if you compare my grades to when I was doing football to my grades during the off season I did so much better grade wise during football then the off season. As of right now my credits are my main focus and

to be able to play football would
help me just be more invold and
focused,

Dennis

Lehninger
