

To whom this may concern,

My name is Jordan Kertta and I am a Senior this year. It will be my second time playing on a sports team. I would love to finish my year playing football. I want to play not only because it is my last year, but because I'm going through some family problems to where it's been to the point where it's said (by guardians) get out of the house. I am well behaved and well mannered but just finally blew up after another situation with my grandparents (legal guardians). I would love to play one more time.

Signed: Jordan Kertta
