Hi,

My name is Silvia Alvarez, I am Victor Romero's mom. I am very thankful for the soccer program at Central Linn High School because it has, not only helped my son improve his grades, but it has also motivated and inspired him to continue his education. Victor went from always thinking negatively about school, not caring much about his grades or the impact it would have on his future, to now seeing education in a new way. Before being involved with soccer, he was also always alone and didn't hang out with very many friends. He was always in a negative mood. Through his involvement in the soccer program, it has allowed him to meet and make new friends, and be a little more outgoing. I would like to ask permission for my son to be allowed to continue participating in the soccer program, to allow him to be able to, not only practice with the team but also be a part of the upcoming soccer games.

Thank you for your consideration.

-Silvia Alvarez
