To Whom It May Concern:

This hardship letter is being written on behalf of Austin Thompson. As the principal of Riverside Jr/Sr High School, I have had the privilege of working with this young man for the last few years. Austin currently lives with his grandparents.

Over the past three years Austin has been forced to change living situations due to situations beyond his control with his family. Throughout this Austin has worked hard to maintain good grades and remain active in school activities.

Austin is currently enrolled in the classes he needs to remain on track for graduation and is participating in our mandatory after school study halls. I am confident with the support of our school staff and his grandparents Austin will continue to thrive academically as well as athletically.

Thank you for your consideration,

Marie Shimer Ed.D.
Principal
Riverside Jr/Sr High School
