To whom it may concern:

My name is Shamra and I am writing this letter to you on behalf of my son Joey Kibbey. I am asking that you please let him have the opportunity to play football with his friends & teammates for his senior year.

It's been a hard couple of years for him with everything going on. The only thing that has kept him going through all of this is being with his friends, teammates & coaches during sports. I do believe sports has kept his mind moving forward & not letting himself get into trouble. Instead of him doing nothing & not being accountable for anything sports has given him a purpose to succeed.

I know his past grades have been for several personal & family issues going on & him not knowing how to handle everything & not knowing how to ask for help. Joey & I have sat down & had several conversations about his future. He is very upset with himself that he has not only let himself down but also his teachers, family, friends & all the coaches that have pushed him to do better. He is wanting to prove that he can handle doing sports & keep his grades up. He has expressed his goals this year are to stay on top of all his grades & if he's not understanding something that he needs to ask for the help for him to move forward with his goal.

I will do anything & everything to keep him on track for his senior year. He did have two releases but chose not to have those & instead took classes to show he is very serious about this. He is on schedule with his graduation requirements and I am asking that you please let him have the chance to play football with his teammates for his senior year. I know this has been a very hard learning experience for him & all he wants is to prove that letting him have his last year to play football that you will not regret it. Thank you for your time & consideration on this matter.
