My son was going through a difficult time last year as my ex wife and I were divorced. Following the divorce my son and I had to squat in the home of my wife and I for the rest of the 3 months into his sophomore year at Barlow, until I could get a home in the Reynolds district for a reasonable price. None of these situations was the fault of my son. He deserves to play for the soccer team because none of these were in his control. We are currently living in the Reynolds district so he should be eligible. Please give him a chance.
