Dear Sir or Madam,

I am Maria Torres, Jonathan Reynoso Torres' mother. I was not aware that my son was ineligible to play soccer this school year. I thought that if he ended the year with 4.5 credits, which is enough to meet progress toward graduation for a sophomore, he would be able to play.

I check his grades on a weekly basis and he passed 5 classes 1<sup>st</sup> Semester and 5 classes 2<sup>nd</sup> semester. One of the classes that he passed from second semester was moved to first semester on his transcript. Therefore, I was confused about my son being eligible or ineligible to play.

Towards the end of the school year we were told he was eligible to play. In my opinion my son should be able to play because he does have enough credits and is on track, there was just a misunderstanding on his transcript.

This upcoming year he will keep his grades up and improve his attendance. We will not let this problem get in the way of his high school career again.

Sincerely,

*Maria Isabel Torres*

Maria Torres.
