This letter is to inform you of my plan & why I haven't been successful in school. When I lived in Burns I wasn't ever focused in the class room. I was always screwing off when I was in school and the rest of the time I was skipping because I thought it had no meaning in my life. And then I started getting into trouble with the law more & more all the time. Until my ~~probation~~ probation officer finally said I couldn't handle myself and sent me to detention. And while I was there I started realizing that school was a big part of my life, especially my high school diploma. So I finally got out & then went back to my old ways and my P.O. sent me away again. And the difference between this time & last time is she sent me to a program which was J-Bgt-J and while I was here for the first couple of weeks I started to realize how desperately I needed to turn my life around and the real meaning of high school. So

I buckled down in School 3 the program
and when I did that I worked
up the privilege to go to Public
School and with that I got the
opportunity to play the wonderful sport football.
And I'm willing to do what ever it
takes to be able to play in the
games and I can do good in
Public School 3. be successful and
accomplish some of my goals.
