Dear OSAA Appeals,

I am requesting you allow AnaKaren Salazar the opportunity to play as a fifth year senior on the McLoughlin High School girls' soccer team. As you can see from the information submitted she has done reasonably well for herself as a Special Needs student.

The opportunity would allow her more time to continue to work as a team member, gain confidence and generally be a part of something she enjoys. AnaKaren is a very social young lady and weighs next to nothing.

Her participation on the team will offer our students more emotionally, than what she can offer physically to improve the team. Her positive attitude, desire to be part of the team and the friendships she has/continues to build is instrumental in her growth.

Thank you for your consideration in this matter.

Respectfully,

Jay Rodighiero, VP/AD  
McLoughlin High School
