To Whom it Concerns:

In writing this letter brings to light some of the hardships that our family has been through.

One major reason for Kevin not being able to complete his assignments prior to the beginning of the school year was because, Kevin's older brother had been released from prison and was under certain restrictions. In order for Kevin's brother to come and visit, Kevin could not be home due to the fact that his father could not have contact with a minor child, despite having an adult present.

This extremely affected Kevin in many ways. It meant that Kevin had to leave the home, leaving little time to complete assignments. It also hurt him emotionally as well.

You see, Kevin has grown up without a father and for years his brother was a person Kevin looked up to and to be told that he can not have contact with him caused hurt feelings.

Also, I am not home till late at

night and really left Kevin little assistance to get help. We also don't have internet access at home, so that played a factor as well.

Since the beginning of this school year, Kevin has worked hard in trying to finish the assignments and was under the impression that if he completes 3 then he would be able to play football.

Kevin looks forward to being on the field with his team mates and thoroughly loves the sport, it also allows him to have discipline and to be held accountable for his actions.

Please allow Kevin to return to the team

Sincerely,

Jenny Keitel
