**Subject:** Letter to OSAA

---

Dear OSAA

My name is Kevin Keilty I am writing this letter to you just to let you guys know where I am at right now with me and my school. Last year I didn't pass someone my classes and it put me down credits and I talked to my councilor and got signed up for online schooling and that same year the new councilor that signed me up had to move to San Diego at the end of the year and when he left I emailed him trying to get my username and password so I can log in and I never received another email from him so I wasn't able to do the classes I needed to get my online schooling but I also ran into a couple family problems on the way from last year to the end of this summer my brother was incarcerated in prison and it was really hard on us my mom is a single parent trying to take care of us and with her son going to prison it was hard on her and on us at the siblings but he was doing really good and when he came out he wasn't allowed to come home because of the charges that he had on him and the stuff he went to prison for. So every time that my brother would want to come home I would have to leave the house because he isn't allowed to be around any kids under the age of 18 so I had to leave and he wanted to come home a lot to see my mom and he was doing really good he got a job and a girlfriend then got engaged and he girlfriend got pregnant and then they found my brother relapsing on the stuff he did before prison. His girlfriend caught him getting drunk and then using online dating sights and the broke up and he is back to his old ways doing stuff he shouldn't be doing.

My mom being a single parent is trying to find the best job that she can to work to make money for her and her kids and she works all the time she works from the morning all the way till the night and I don't really see her that much and when I need help with homework she can't really help me because she isn't home.

I have worked really hard to get my grades up and To fix this problem that I have and I learned my mistakes and I'm gonna get my work 100% done this year with no issues! I hope for the best and I'm so glad I got these glasses done so that I am on track to graduate! Thank you so much

Kevin Keilty
