

My name is Jorge Hernan Hernandez Huerta, I would like to participate in school sports in the

~~Football~~ team because I think that would give me an extra motivation to beat myself.  
~~Soccer~~

I also think that if I participate I would make more responsible to work hard to pass all my classes and to obtain all the credits to go to .I think university that could help me also to learn to be more sociable and know how to work together, because it is the sport that I like.
