To Whom It May Concern:

I am requesting eligibility to play on the varsity soccer team at Summit High School. Last school year (2014/2015), I was chosen to study in Sweden as a Rotary Youth Ambassador.

While in Sweden, I learned a new language, lived with three host families and took a full course load at Sandbackaskolan a public school in Arvidsjaur, Sweden. My classes were Physics II, Religion, Chemistry II, Swedish, Swedish for Immigrants, English, and Calculus. Unfortunately, since I was just learning Swedish, I had to take all my courses as pass/fail and he did not receive any credits at Summit.

I would not give up my year abroad, but I also don't want lose the opportunity to play soccer. While in Sweden, I worked hard academically and took extra online classes.

When I came home, my mom and I met with Andy Fleming, my guidance counselor, to create a plan to graduate on-time. I am enrolled in Advanced Algebra II, Earth and Space Science, Society: A Modern Approach to Civic Living, Computer Programming, AP Physics, Contemporary Lit & Comp, AP Literature, and Personal Finance (Online Elective). I have been advised that with this scheduled I will have enough units to graduate with my class in 2016.

Please grant me the eligibility to play soccer.

Sincerely,

Garrett Jepson
