Dr. Bryan Sohl  
283 Scenic Dr.  
Ashland, OR 97520

Dear Karl Kemper and OSAA,

Our nephew, Martin Anema, came for a 3 week vacation this summer and we became more aware of the challenges he was having at home in Denver. Both his parents have separate households with younger children and he has not received the attention or the supervision he needs to continue to succeed in school and life.

His parents have agreed to allow him to spend this year and maybe next with us and he is very excited about the opportunity for a fresh start. They have assigned guardianship to us and I can provide the paperwork if needed. He is a junior and eager to play soccer again as he did when he was a middle school student. The team experience and fitness opportunity will be very important for his success.

No one has recruited him to play soccer here and no one in the Rogue Valley has ever even seen him play, including us. We just know he really wants to have the chance to participate!

Thanks for your consideration.
