

To who it may concern,

My name is Trevor Tucker and this is my fourth year at Astoria High School. I have played Football for the last 3 years, Football is the only sport I have stuck with because I actually enjoy it.

There are several things that have happened last year that contributed to my lack of school participation. I suffer from depression, they put me on medication that interfered with my ability to concentrate. I am the middle child of a single mother, my mother works alot and the household chores became my responsibility. I also take responsibility because I did not make school a priority and because of it my grades suffered.

I know what I have to do in order to succeed and graduate this year, I have scheduled extra online classes on top of my normal schedule. I know I have to maintain a certain grade point average to be active in football. I think football will be a big part to help me stay motivated and to be on top of my school work. I will work harder knowing that I will not play football if i fall behind in school.

Please consider letting me play football my senior year.

Sincerely,

Trevor Tucker
