**Subject:** Jaylon Minnieweather-Hardship-Grade Report-Madison

Hello Tom,

I stated in the online request I would get a grade report over today. I am not sure how to get that info into the report without starting over again. The teachers have not totaled up the point for their class but all knew he was doing well and pass.

Here is a grade report for Jaylon Minnieweather:

Econ: Passing  
Geometry: Passing  
Eng: Passing  
Competitive Games: Passing  
Spanish: Passing  
Humanities: Passing

Forensic Science: F (the teacher informed me today he is doing very well. He was a late addition to the class and has turned in all work since he has arrived. He is missing two assignments:

1. Science Safety Agreement that was handed out before he started. He needs a parent signature and will have that turned in by Monday.
2. An online survey that will take 5min. He will complete this today at Flextime with the teacher.

Once he completes these he will have a B.

I stated in the online request I would get a grade report over today. I am not sure how to get that info into the report without starting over again. The teachers have not totaled up the point for their class but all knew he was doing well and pass.
