

Summit High School

Florian Costa

To whom it may concern,

This summer, my family and I moved to Bend from California because of my mom's job. At the time I had moved, the counseling office and the school was already closed for the summer, so I was not able to get the transfer form required for the soccer team, but I had already signed up with the school academically. I was really interested in joining the soccer team, and I had heard about open fields that were happening during the summer with the team. Before the official season, I attended two of these open fields.

Thank you,

Florian Costa
