

Dear, OSAA

09/15/2015

first of all I wanted to say thank you for giving our son Ernesto the opportunity to be involved this football season, and the reason for us doing this letter is to explain that my son struggle on his freshman year of highschool when he used to attend aloha highschool in beaverton and the reason he struggle in my opinion is because he had trouble adapting to a new school. he did not have friends and coming from a different state was a big factor on the first 3 month's of he's freshman year, we notice he was having problems with he's grades so we talk to him we also went to the school and talk to all of his teachers they were all very supportive and started working together, we start seeing the change, another thing to help him improve is whe we move to wilsonville and that teacher's at this new highschool were very supported to our son, they mention the oportunity of him to be involved in sports and that motivated him a lot, and he is now trying his best. we notice the change in him and now we are so proud of him. we are going to keep helping him with he's school and motivated him all the way because we know he has so much potential in him, so one's again we appreciate you would please give him the oportunity to keep playing on the team. We belive sports are helping him a lot in school and thinking about his future. thank you and we look forward to work together with you for the future of our son Ernesto.

Father: Christopher Orellana.

Mother: Alma Orellana.
