Bend, Or 97701

RE: Erik Ingman

Dear Gabe,

Our daughter, Susie expressed the idea of Erik going to high school in the US some time ago. When we moved to Bend six years ago, the idea of Erik attending high school here became a reality. Erik is a competitive Nordic skier and the combination of him training here in Bend and competing in school sports appealed to him.

Erik is a US citizen, born in Atlanta, Georgia and has a dual citizenship with Finland. He holds passports for both countries.

Since we only got to see Erik once or twice a year we jumped at the chance for him to live with us, his grandparents. We want very much for him to be able to compete in varsity sports and all other school activities. This is a great way for him to make friends and feel a part of his American culture.

We talked to Summit High School last winter since we reside in this school district and enrolled him when he arrived in early June. Our daughter and son-in-law granted us legal guardianship for all medical and matters pertaining to school and other activities. We presented a copy of this document to the school when we enrolled Erik.

Erik has our permission to participate in school sports and all other school activities.

We look forward to Erik representing Summit High School in Cross Country, Nordic Skiing and perhaps golf. Erik is very focused and competitive and will give his best in all sports and scholastic endeavors.

Sincerely,

Alan R. Swager, Guardian
