I've been running a senior transfer kid, Brian Rodriguez, through the OSAA Hardship process. He's a kid who is 18 and moved out of a bad family situation and is living with his uncle and legal guardian here. He needs to be involved in something and he would like to try football. I'm pretty sure he's not going to be an impact player and at this point may never see the field, we'd just like him to be a part of something here. Since OSAA doesn't recognize guardianship I need the blessing of the conference. Let me know.

So far so good on the grade checks. We'll do a weekly check that determines eligibility for the next week. Same as all of you.

I'm good with it if it's in the best interest of the kid and he's good academically.
