hello i'm writing this letter to request eligibility for football again due to my grades and attendance from last year because of difficulties with family and some other personal problems .About november last year i was kicked out of my guardian's house because of some of my very regrettable decisions i had made, because of those decisions i was forced to couch surf and stay with numerous friends through the year. That caused me to not be able to attend school because i was always on the move and looking for the next place to stay for the night. I was also supporting myself at the time except for help from my grandmother. That caused me to have to find some type of job to help supply for myself. To fix some of the mistakes i made last year i'm currently enrolled into a accelerated program ran my connections academy. They are now helping me try to catch up and make work to fix some of my past mistakes please let me know if you can help me with this matter thank you for your time and consideration.
