

I take full responsibility of not meeting last year requirements of passing 6 classes and with bad attendance, but I'm on track with my attendance this year and I'm on track for graduation with a total of 17.5 credits this year. I'm currently taking seven classes and enrolled in credit recovery I'm set to graduate but I would also like to play my final year of soccer. I hope you can grant my request of playing soccer, if not I will do anything it takes to meet your requirements you may set for me to be eligible to play. I do meet the new requirement this year of 17.0 credits.

Sincerely, Marcus Duvall
