

September 24, 2015

Dear OSAA,

I am writing this letter of eligibility to you concerning my contribution and support in my school's extra curricular football program. I am aware that I do not meet the requirements this year due to my credit deficiency from this last school year. This is due to personal issues that I was able to address over the summer. Since the beginning of this school year I have been doing better. I have attended practice and other events through football. Also I have been keeping good attendance with less than three tardy markings and no absences. In my classes I am participating in my assignments and completing the assigned homework. In regards to the tardy markings I do have, in the future I will be arriving to school earlier to give my self more time to prepare for my school day. Also I will be doing my best to limit the times I leave the classroom so I do not miss any important directions or help. It will be thanks to these plans that I will be able to continue being successful at McNary High School.

Sincerely,

Steven Zepeda
