

Shane Bryan

Mr. Samolze, last year, during the 2nd semester, I was forced to withdraw from Grant due depression. I was missing large amounts of school, and my grades were suffering because of it. Both my doctor, and my counselor agreed it would be smart to withdraw. I am currently re-enrolled, and on track to graduate on time. I am taking online courses to make up missed classes, and I am keeping up with my normal classes as well.
