Dear Tom,

I am writing to request a hardship for Damion Colvin-Rice, a senior at Baker High School. Damion is a student that will be enrolling at Baker High School on Monday, Oct. 12, 2015. He has attended Elkhorn Adolescent since June 1, 2015. Damion was credit deficient and did not pass 5 classes last spring. At the end of school last June, he decided he was going to attend summer school full-time at Elkhorn and bring his credit total to 17.0 so that he could participate in extra-curricular activities including football and basketball.

He has been in constant contact with me about his progress and I have received his official transcript. He has 17.0 credits now and is on track to graduate. This is a result of his efforts this summer where he picked up 11.5 credits. According to his teacher, he was a full-time student and worked very diligently toward his goal.

Damion has had a rough high school career and has attended several schools in our area. This is evident on his transcript. I believe that granting Damion a hardship would be beneficial for his psyche and it also lets him know that if you want to turn life around, you can. He needs to stay involved and has attended and watched every football practice this year, while working toward the 17 credit mark.

I appreciate you considering this request. If I can be of further assistance, please call me. Thank you.

Tim Smith
