

To Whom it may concern,

I Mike Rodgers, am writing this letter on behalf of my son Bennett Rodgers and his transfer back to Eagle Point School District.

During the summer of 2013 my wife and I made a decision regarding our children Jonelle and Bennett, to transfer them into the Medford School District. This was due to some circumstances surrounding our daughter and ~~circumstances~~ Eagle Point High School. Bennett was a freshman at the time and was not in favor of the transfer and leaving behind the school and friends he had grown up with. But, we as parents were not willing to split up our children into different school districts. We made both children attend N. Medford and told Bennett if things changed after his sister graduated he would make his own decision where he wanted to attend school.

Now it is Bennett's senior year and he is not happy at N. MED. He registered and attended N. MED for a ~~week~~ 1 1/2 weeks and has decided he wants to transfer back to his original school. We have and still currently

reside in the Eagle Point School Dist. and
due to the changes that have been made
at Eagle Point High School (New Admin, AIS,
Volley ball coach), ~~has~~ and now that his sister
has graduated, completely support his
decision.

Please consider allowing him to enjoy
his last 2 years of high school eligibility
and don't hold him accountable for the
decision and circumstances that were out
of his control the last 2 yrs.

Thank you 10/1/2015
W. Rodger
