

Tom Welter:

I have been working with Hanna Maiorano and her parents in regards to her eligibility request to participate in Speech and Debate and then Track in the spring. Clearly, Hanna's letter and her parent's letter explain the hearing challenges she faced her freshman year. Those health problems have been addressed and the new hearing aids are clearly helping out as per the proof in her most recent progress report. If you have any other concerns or questions, please feel free to call or email at any time.

Thanks and enjoy the travels!
