

and I will not let that happen. We have had four extremely close family members die in the last five years. Dylan uses "shooting baskets" as his therapy...a way to work his feelings out. He is a happy, out-going young man. I am in awe of his resilience and perseverance in both his personal life and school life. He has worked so incredibly hard to not only pass his classes, but also get grades that he can be proud of. Last year in his Junior year at Clackamas, he struggled with Algebra and some other classes on and off. This was not due to lack of effort. He saw a tutor weekly and studied every night, but he simply did not have the knowledge base that most people his age have. He attended Summer School full time this past summer and earned 2 credits. This year, his Senior year at Clackamas, he is earning FANTASIC grades! We are all so very proud of him!

Dylan Blazevec deserves to be a part of a high school team. He deserves to have his life- long wish come true. He has worked tremendously hard and I hope you will give this young man a chance. The world has not been kind to him, yet he remains a very kind, loving, unselfish human being. I will not give up on him.

Please consider allowing Dylan to play in OSAA sports this year.
Please be part of this success story.

Sincerely,

Nichole Elkins
