

10-13-15

To who it concerns

Dylan shay has Lived at my Home Since before the beginning of the school year. prior to that his grades were failing and he was not doing well. Since moving in with me he has done a 180, he has been getting his school work done and has become social. He would like to be active in sports again, with your blessing he would and I would like ~~have~~ him to be able to be officially involved in sports again. which will help him become the well rounded person he is Capable of.

Thank you

Mike Pihl
