Offering Psychiatric and Psychological Care

To Whom It May Concern:

I am providing this letter to Anja Mundy, mother of student Ava Mundy, for the purpose of recommending that Ava be provided a tutor to help her stay caught up in school. Ava has a diagnosis of Generalized Anxiety Disorder, the severity of which is currently keeping her from being able to attend school regularly. We are in the process of transitioning Ava to a new treatment provider. In the interim, I recommend that Ava be excused from school and receive tutoring now through the end of the school year, June 11, 2015. By then her new provider, Dr. Davidson, will be able to make recommendations going forward.

Sincerely,

Kelli L. Pellegrini, Psy.D.
