My son Trevor Jones came to live with me in Oregon because his father could not tolerate Trevors behavior anymore.

Trevors dad always had a problem when it came to discipline. He has never been consistent so Trevor knew he could do whatever he wanted and there would be no consequences.

Well eventually there would be because I would only tolerate so much or as much as I could from Oregon.

Trevors dad has called me several times stating that Trevor had not been home for several days at a time. Then the school called stating that Trevor was suspended for 5 days.

That's where I drew the line. My next 2 days off in a row I went and picked up Trevor.

I know Trevor made a bad decision,

He was suspended for being under the influence and possession of marijuana.

That's why I went and got him. He knows better, but with no discipline he might keep it up.

Trevor was a Varsity wrestler last year and he has won 2 titles
