

10/28/15

To Whom it may concern,

When Leilani was a young girl we were having a good time traveling in the back seat of her uncles car talking about her plans for the future(adults always ask those questions like a kid might even know :-)) and she said she wanted to come to the "U.S" and study. I said you can come live with us when your in High School. First Leilani got to go study 8th grade with some family friends in Texas. She then went to study in Germany 1/2 of her 11th grade year. This has allowed Leilani to grow and mature into a well rounded, world traveled young women(she's been to 11 different countries as well). She is very self assured, friendly, smart and talented. Leilani strives for and is very proud of getting good grades, which she has achieved since getting in High School and will keep doing while studying medicine in college! Leilani is 17years old and has been doing dance and Silks for many years in her mothers gym, as well as modeled bathing suits in Costa Rica. She is athletic, beautiful and graceful in any sport she try's.

Peace!

Anna Vacca
