

Derek Boldt 11/11/15

To OSAA,

I Derek Boldt did an inter-district transfer from Central Inn HS to Lebanon HS. To find better academic programs and help my future in the business world. Lebanon HS has more health programs that would further my knowledge in to what I want to study for. I am currently enrolled in a sports medicine class that has opened my interest in becoming a chiropractor. But have also opened my interest into becoming an architect which I am also enrolled in. As my senior year is here I wish to wrestle for my last time in high school and possibly the last time ever.

Thank you for your concern,

Derek Boldt
