Tom,

I have received letters from Ruben's Miller Education Case Manager, Director of Alternative Education, Counselor, parent, student athlete (Ruben) and Physician. Information obtained in those documents are consistent with an OSAA hardship for academics. Ruben's academic hardship is due to medical issues outside of his control. Ruben was a student at Hillsboro High School until June of 2015, he was then placed at Miller Alternative Education Center. You can see from his current grades and attendance report that Ruben is now able to be successful.

Ruben is on a plan to successfully receive his Modified Diploma. Ruben's current grades and attendance show his improvement over the last few months.

I recommend your consideration for an academic hardship waiver for this student athlete.

Please let us know your decision and thank you for your consideration,

Steve Drake

Mr. Welter,

Ruben is a junior attending the Miller Education Center West 9-12 Program. His neighborhood High School is Hillsboro High School in the Hillsboro School District. Ruben is a student being supported through Special Programs (Special Education) and is pursuing a Modified Diploma.

The medical situation that prevented Ruben from attending, earning credits and staying on pace for graduation is not present at this time. Ruben's current grades and attendance show marked improvement over his 2014-2015 records. Miller Education Center supports Ruben in his pursuit of a graduation diploma and in his hardship case to compete in OSAA sanctioned athletics.

Please let us know if we can be of any further assistance.
